

Still the Best (Armely Team Song)

To the tune of "You're Still the One" by Shania Twain

[Verse 1]

Looks like we made it,
Look how far we've come, Armely.
Worked hard each moment,
You were right there next to me.

We've faced the pressure,
Pushed through the highs and lows,
And I just wanna say
I'm proud to let you know...

[Chorus]

You're still the one I lean on, (You're still the one)
Still the crew I count on.
The way we roll, the way we shine
Still the best, and you're still mine.

You're still the spark in each day, (You're still the one)
Still the ones who light the way.
Glad I get to work with you
Still the best team I ever knew.

[Verse 2]

Ain't nothin' easy,
But with you, we find our way.
Through every deadline,
We deliver, come what may.

You bring the magic,
To every task and call,
So I just wanna say
You're the real stars of it all.

[Chorus]

You're still the one I lean on, (You're still the one)
Still the crew I count on.
The way we roll, the way we shine
Still the best, and you're still mine.

You're still the spark in each day, (You're still the one)
Still the ones who light the way.
Armely's got that kind of crew
Still the best and it's all you.

[Outro]

Yeah, you're still the ones I trust,
Built on teamwork, heart, and guts.
To the fam I know so well
You're still the best, and I can tell.
